The Bulgarian Prime Minister Sergei Stanishev along with the Russian Prime Minister Vladimir Putin and the Mayor of Moscow Yuri Luzhkov visited the stand of the Bulgarian IT industry during the Bulgarian national commercial and industrial exhibition held in the complex "Gostinyii Dvor" in Moscow. At the exhibition ORAK Engineering is represented by its Moscow division.

The national Exhibition in Moscow is up to this moment the largest representation of the export potential of Bulgaria abroad, promotes the development of trade and economic ties and partnerships in business circles of both countries. Bulgaria is represented as a full member of EU and reliable partner, offering competitive products and services meeting the highest European and international quality requirements. At the exhibition are presented by branch Bulgarian companies, as well as government and non-government organizations.
